

## AFS GUIDANCE & STEERING AgGPS EZ-Guide 500

The world's first **GPS lightbar system** with:

- **7-in. widescreen color display**
  - **Large buttons** give you single-press control of all main guidance functions, GPS status, set-up and help
- Built-in dual-frequency **GPS receiver**
  - Lets you **choose your accuracy** option without adding an extra GPS receiver to your cab
  - From 6- to 8-in. up to sub-in. pass-to-pass, year-to-year
- **Multiple guidance patterns** – Select between plan and 3D perspective views
- **USB flash drive** – Transfer coverage maps to your computer and print reports

---
